Message from the Education Coordinator

Hi,

A new school year brings opportunities to try new teaching and learning styles and activities. I hope you will find these resources helpful. I am here to support and help you *teach* youth about *natural resources*. Contact me for if you should want help, ideas or something you don't see mentioned here and I will try my best to assist you.

Let's work together to teach the next generation how important it is to take care of our limited natural resources.

All the best,

Kelly Atkinson
