

Meaningful Watershed Education Experience (MWEE)

We are now offering the MWEE to students of all ages. This unique learning experience aligns with the Environmental Literacy goals as described by the VA Department of Education.

MWEE's support high-quality teaching and learning by actively engaging students in building knowledge and meaning through *hands-on experiences*.

The Soil and Water Connection Interactive, mobile classroom!

The Soil and Water Connection is a trailer that has been converted into a learning experience. This SOL aligned mobile classroom allows for ecosystem discovery, population and community understanding, soil component awareness, human impact on soil and water quality and more. Contact us to schedule a visit.

We will come to you!
