OUTDOOR LEARNING AND COOLER WEATHER GO TOGETHER!

As the holiday season quickly approaches, so does excitement and antsy kiddos. In this bulletin you will find links to tried and true, hands-on, get 'em moving activities. I am also available to bring SOL aligned natural resource learning to you from the Project Learning Tree, Project WILD or Project WET curriculums. . Email me to learn more.

- Kelly

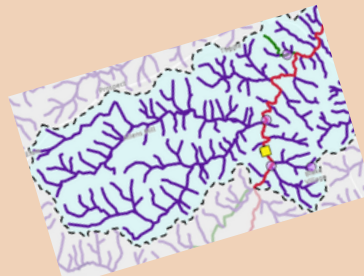

Time Sensitive

- Virtual "LIVE" Farm Tours w/ lesson plans (preK-12)
- Plant the Moon Challenge - Due 11/6 (middle schoolers)
- Purple Plow: a free STEM education platform that engages students in creating solutions for real-world, complex issues related to agriculture – **REALLY COOL CHALLENGES!** – some due dates coming soon...

How is my waterway?

This EPA (Environmental Protection Agency) helps users identify and learn about watersheds and surrounding waterbodies quality.

Virginia's Environmental Education K-12 Literacy Strategic Plan has been updated! Check it out [here](#)

Have you heard about Agriculture In The Classroom?

Virginia AITC is a statewide educational program providing resources, training and support to schools, educators and volunteers so that they can meaningfully connect children to agriculture.

AITC has made a strong come back! They offer SOL aligned activities that are cross curricular. See their latest newsletter [here](#). Want to borrow educational materials from them? Look [here](#)

(note: I can help you get these and return them if needed)

Learn more about all of our programs [HERE](#)
