# ENVIRONMENTAL EDUCATION RESOURCE REPORT

Interactive Newsletter - Fall 2021

Together we  
can develop  
Environmental  
Literacy in  
youth!

## Message from the Education Coordinator

Hi,  
Happy New School year! As you get back into the grind of a more "normal" school year, I hope you will consider adding a splash of Environmental Education (EE) into your curriculum. EE can be multi-disciplinary, SOL aligned and fun! I am available to help you plan EE lessons and activities.

In addition to the links in this newsletter, I can supply hands on learning kits (soil / water), classroom programs (Watershed, water cycle, etc) and help you utilize your Outdoor Classrooms. I am available to come to you or can simply provide materials. Together we can develop Environmental Literacy in youth!

Best wishes,

**Kelly Atkinson**

## Technology Corner

- ✓ There are many ways for your students to be Citizen Scientists

---

- ✓ Explore these virtual field trips and categorized youth curriculums (K-12)

---

- ✓ 12 Engaging Science APPS for Middle and High School Students

## DID YOU KNOW?

We will work with you to bring a MWEE (Meaningful Watershed Education Experience) to your school--more info coming soon...

## Lessons and Activities

(Assistance with SOL alignment available upon request)

ES: Grades 3-5

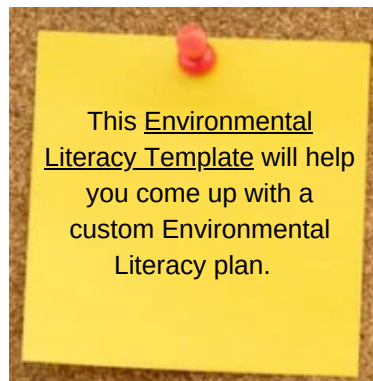

Design A Garden (4H)

K-12: GLOBE Learning Activities/Lessons

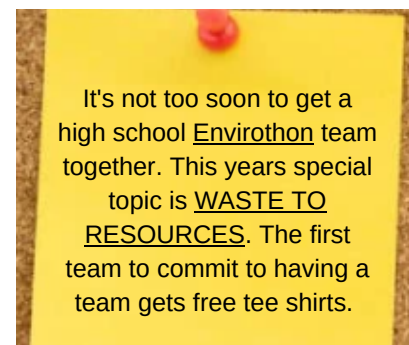

(Global Learning and Observations to Benefit the Environment)

## WIN A BENCH FOR YOUR SCHOOL!

- Trex plastic film recycling contest
- Collect for 6 months
- Totals due to Trex in April

This Environmental Literacy Template will help you come up with a custom Environmental Literacy plan.

It's not too soon to get a high school Envirothon team together. This years special topic is WASTE TO RESOURCES. The first team to commit to having a team gets free tee shirts.

Follow **Piedmont Soil and Water Conservation District** on Facebook. Friend **Piedmont Staff** for up-to-date learning resources and professional development opportunities.
